*A Message from Mayor Annette Iafallo ...*

*As news about the **Coronavirus, also referred to as Covid-19**, continues to develop, our partners at the Erie County Health Department are working hard to keep everyone informed about the virus and various precautions we should follow during this time.*

*To help in this communication effort, we've posted a 'helpful tips' video message from the Erie County Health Commissioner to this page. Feel free to share this information with family, friends and neighbors.*

*As new information about the coronavirus is made available, we will post updates as appropriate.*

*Thank you.*

Link to Erie County Health Commissioner video is on the Lackawanna facebook page <https://www.facebook.com/lackawannany/> Scroll down to view the video.
