**A MESSAGE FROM MAYOR ANNETTE IAFALLO –
GARBAGE/RECYCLING PICKUP DURING UPCOMING WINTER STORM**

By now you've heard the news that a snow storm, accompanied by high winds, is projected to hit Erie County over the next 36-48 hours starting tonight, Wednesday, January 5th.

Our DPW road crews are staffed, equipped and ready to manage this first major storm of the winter season as fast and efficiently as possible. Please avoid any unnecessary travel and follow the alternate parking rules posted throughout the city.

With respect to garbage and recycling pickup on Thursday January 6th and Friday January 7th, pickup WILL REMAIN AS SCHEDULED. Given the projected high winds, PLEASE delay putting your garbage and recycling to the curb until 6:30AM on your pickup date.

Also, make sure that all recycling materials are fully secured in a tote or appropriately marked can, box or in a clear bag. If you have limited recycling volume this week, please consider holding it until next week if possible.

If there is any change to the garbage and recycling pickup schedule, I will send another updated call and also have information posted on the City Facebook page and website.

As always, stay safe and God bless.

Annette
