A Message from Mayor Annette Iafallo – Center Street Reconstruction Project Is Underway!

I'm thrilled to announce that the long-awaited Center Street reconstruction project has FINALLY started! This over \$4 million project is a team effort involving the City of Lackawanna, [Erie County Water Authority](#) and Erie County Sewer Authority.

The project work on Center Street is starting at Kirby Avenue and will progress north in stages. During construction, please be alert for detours and the presence of workers and equipment.

The Center Street reconstruction project is very extensive and will take some time to complete. Motorists/residents should expect delays and plan their travel accordingly. A supervisor will be on site to address any questions as needed.

Annette
